UKALIGNERS

Credentials for admin
Link: https://behnam.eu.pythonanywhere.com/admin
username: admin@ukaligners
password: 4914

password can be changed from backend (https://behnam.eu.pythonanywhere.com/admin)
moreover dentists account can also be promoted.

Signup
I have added a signup option for dentists. Which can be promoted to admin from backend.

Login
Admin and Dentists can login to system by entrying username and password.

Dashboard
Successful login redirects admin and dentists to dashboard page where patient numbers are shown. Admin can see the numbers of overall all patients added by all dentists while on the other hand dentists can see patients details which are added by them. Clicking on any card redirects them to patient list page.

Dentist
Admin can see list of dentists on dentists page.

Patient
All patients will be displayed to admin while only those patients would be shown to dentists added them.

Logout
It will redirect to login page.

Note: Add new patient form is still imcomplete yet and will be added by tomorrow hopefully.

Thanks for your Patience.
